## The Face of FIDUCIARY TRUST

#### **TEXAS FINANCIAL ADVISORY**

Here at Texas Financial Advisory, we are always saying the F-word. No, not that word! The one that applies to the world of investments and investment advice. The word that I am referring to is FIDUCIARY.

Most are not aware that the financial industry operates on two standards of care, Suitability or Fiduciary. In essence the "suitability" standard the salesperson needs to know their client and their financial situation and recommend products that are suitable for the client's situations. The fiduciary standard does take the process quite a bit further. For example, the additional requirements include putting the client's best interests first, acting with prudence in concert with good judgment of a professional, providing full and fair disclosure, and avoiding conflicts of interests and manage any unavoidable conflicts in the clients' favor.

Texas Financial Advisory founded by Brooklynn Chandler Willy, J.D., RFC, CDFA operates 100% on the fiduciary standard. We are a comprehensive, holistic advisory firm that goes beyond the investment counseling most investors settle for. The formula for our clients' success includes advanced planning such as college funding for the high income wage earner, wealth enhancement, wealth transfer, wealth protection, retirement income planning, charitable planning and much more. You may have tried the rest, but now it is time to try the best. Please visit our website at TexasFinancialAdvisory.com and listen to the Texas Financial Advisory Radio Show every Sunday on WOAI 1200 at 11 a.m. or on KTSA 550AM/107.1 FM at 1 p.m.

# The Face of ALLERGY CARE

## **STONE OAK ALLERGY**

Our philosophy is simple: We will make a positive difference in every patient's quality of life who walks through our door. We specialize in treatment of environmental allergies, asthma, and immune problems as well as allergies to foods, medications, and stinging insects. Every patient is unique, and sometimes thinking outside of the box on how to help each person individually can make all the difference. In addition to the symptoms we typically associate with allergies like runny nose, congestion, and itchy eyes, our patients may exhibit other complaints such as headaches, skin issues, and an overall rundown feeling. We see patients of all ages, from infants to older adults.

Many patients come to us after having lived with symptoms for years. My goal is to help everyone live life to the fullest without having to deal with struggles associated with allergies and to avoid delay in achieving relief. Let's get you better right away. We'd love for you to meet our wonderful physician assistant, Faye Crowell, as well. Give us a call!
